

# RAD-Moon

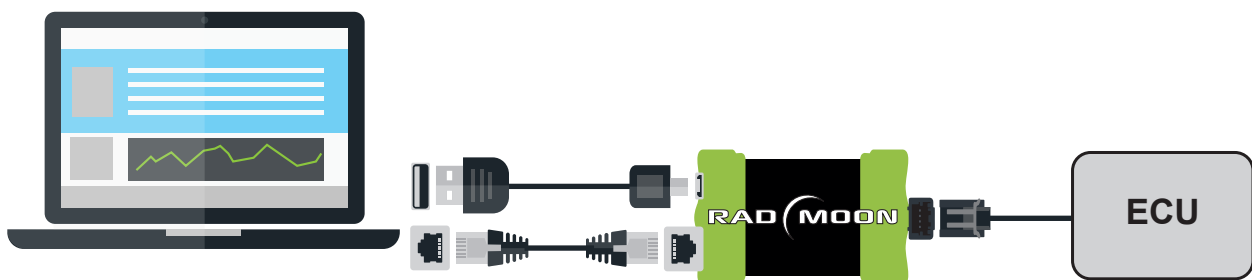

## BroadR-Reach® (100BASE-T1) / Ethernet Media Converter

### Connect BroadR-Reach® (100BASE-T1) to 10/100 Ethernet

The RAD-Moon is a media converter for connecting one port of Broadcom's BroadR-Reach® (100BASE-T1) physical layer to one port of a 4-wire 10/100 Ethernet (100BaseTX). The RAD-Moon provides a small but rugged enclosure perfect for carrying in your laptop bag.

#### Features:

- 1 Port BroadR-Reach® PHY (BCM89810) connected directly to one port of 4-wire 10/100 Mb PHY
- Powered via USB
- Master/slave auto-configuration
- Activity Link LEDs for both PHYs
- Molex Mini 50 connector for BroadR-Reach® PHY
- RJ-45 connector for 10/100 Mb PHY
- Compact for portability
- Rugged extruded aluminum enclosure
